Marxists Internet Archive

<http://marxists.org/>

The Marxists Internet Archive (MIA) is a vast resource that includes not only the classics, but also many other books and documents, an encyclopedia, and other resources.

- Beyond this half-day political school are the remaining 11 of these schools.
- Beyond the half-day schools are the 16 ten-part CU courses, with many more texts.
- Beyond the ten-part courses, is the **Marxists Internet Archive**.
- Beyond the MIA is the culture of the world.

Marxism is not a sect, but it is an ordering discipline that will help anyone to deal with the whole world's intellectual preoccupations, and history.
